POUNDS PER SQUARE INCH
MINIMUM 5 PSI

WATER USAGE
10-40 GPM

Our FIRE HYDRANTS are certainly the most popular water play feature on every splash pad. This is the number one sought after water play feature for both our residential and commercial customers. We love showcasing these because they are so much fun. We love to watch the kids play near these and best part is they come in a large variety of colors. You will find more kids play with these awesome water play features than any other feature because they can run around in any direction and be sprayed with water. Don't let anyone else tell you different, these Fire Hydrants are a blast to watch and play around.
